NURSING HOME

## Caring with a Personal Touch

Our clinical team devotes extensive resources to track and implement the latest innovations in healthcare delivery. Our specialized programs and services are designed to help you enjoy your stay and to meet your therapeutic goals.

**Collaborative Care Program** – each Atrium facility participates in collaboration with other health care providers to ensure the continuum of patient care remains seamless. Hospitals, physicians, and pharmacies are just a few of our community partnerships.

**Care Mapping** – is a tool used to optimize the delivery of skilled services to our residents in an effort to accomplish the highest possible level of clinical outcomes. This process is also used to improve communication with our residents and their family members during their stay and to effectively coordinate skilled services among multiple disciplines.

**Atrium Care Transitions Program (ACT Program)** – upon Admission, each new patient will be assigned a facility team member to assist in the transition from the hospital. The ACT Coordinator will act as the liaison between the patient and the facility to assist in meeting the patient's needs throughout their stay.

## Rehabilitation Services

Professionally trained speech, occupational, and physical therapists consider the unique needs of each patient and create a therapeutic program to help assist each patient in achieving a higher level of functioning. Our positive, energetic team of therapists will be there for those facing challenges including but not limited to:

- Orthopedic Care
- Post-surgical Care
- Stroke and neurological care
- Arthritis
- Pain Management
- Wound care
- Fall Prevention
- Difficulty Swallowing and eating
- Incontinence
- Decline in day-to-day functioning
- General weakness

Our goal is to help our patients achieve their maximum level of independent functioning and to develop a personalized plan to get you back on the road to recovery!
